

ASCHA- Tools of the Trade

Safety Tool Presentation – Invest in Your Health Course

Knesha Rose-Davison, MPH

Public Health Program Director

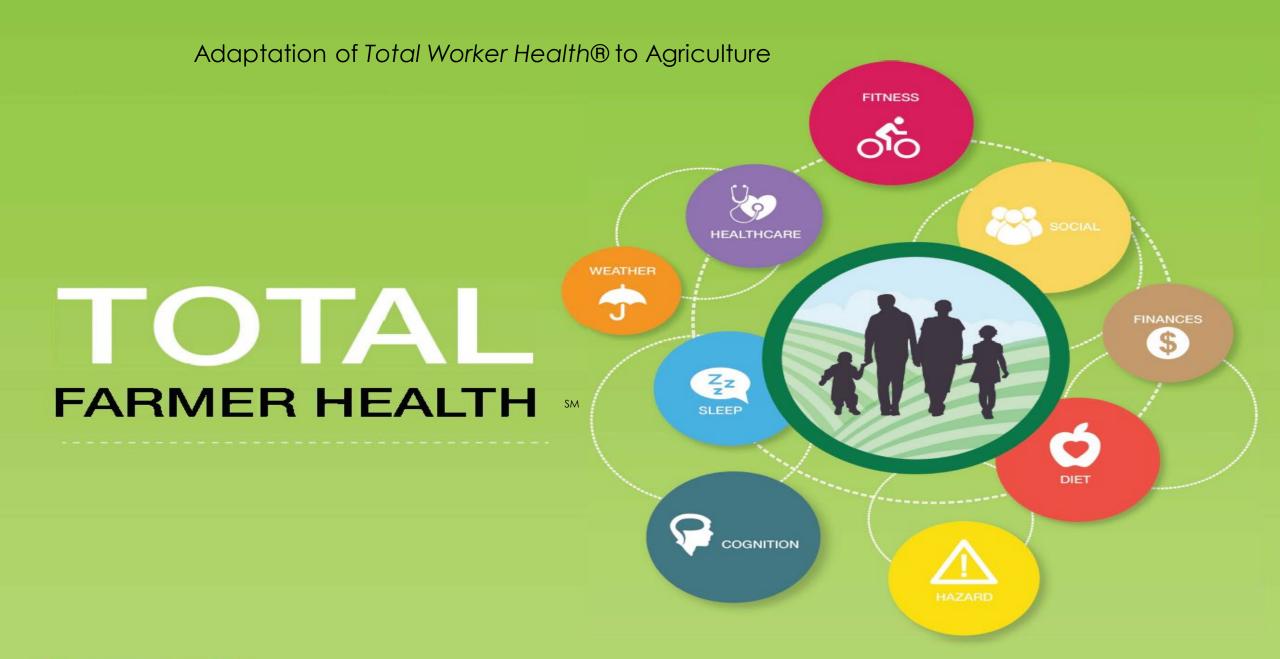

Protecting the People who Feed the World®

How we Protect:

- 1. Ongoing needs assessment of Ag producer needs (following Total Farmer Health)
- 2. Train rural health professionals across the nation
- 3. Establish partnerships with NIOSH Ag Centers, rural research centers, and other NPOs
- 4. Maintain a culture of readiness and organizational expectation to protect and respond

Invest in Your Health: Train the Trainer Program

- AgriSafe is offering this Train-the-Trainer series to anyone who works with youth (ages 14-23 years).
- AgriSafe is committed to train safety and health professionals who wish to teach IYH trainings in their classroom. Under our open share platform, once certified, you are free to use the training materials.
- The series of modules will walk you through <u>6</u> target areas and includes an instructor guide after completing each topic. These train the trainer courses will help prepare you to teach on each of the topic areas included. You will have the opportunity to increase your knowledge and will receive an instructor guide to use with your students or young workers. The modules include On-Demand webinars, Classroom Learning Activities, as well as an Instructor Guidebook.
- IYH training modules aim to educate, prevent and protect young farmers by providing them with the tools they need to stay safe and healthy.
- These Train the Trainer courses are designed for teachers, Extension staff, 4H and FFA leaders and others who work with young adults.
- Our end goal is to build the capacity of rural educators and leaders to train young workers.

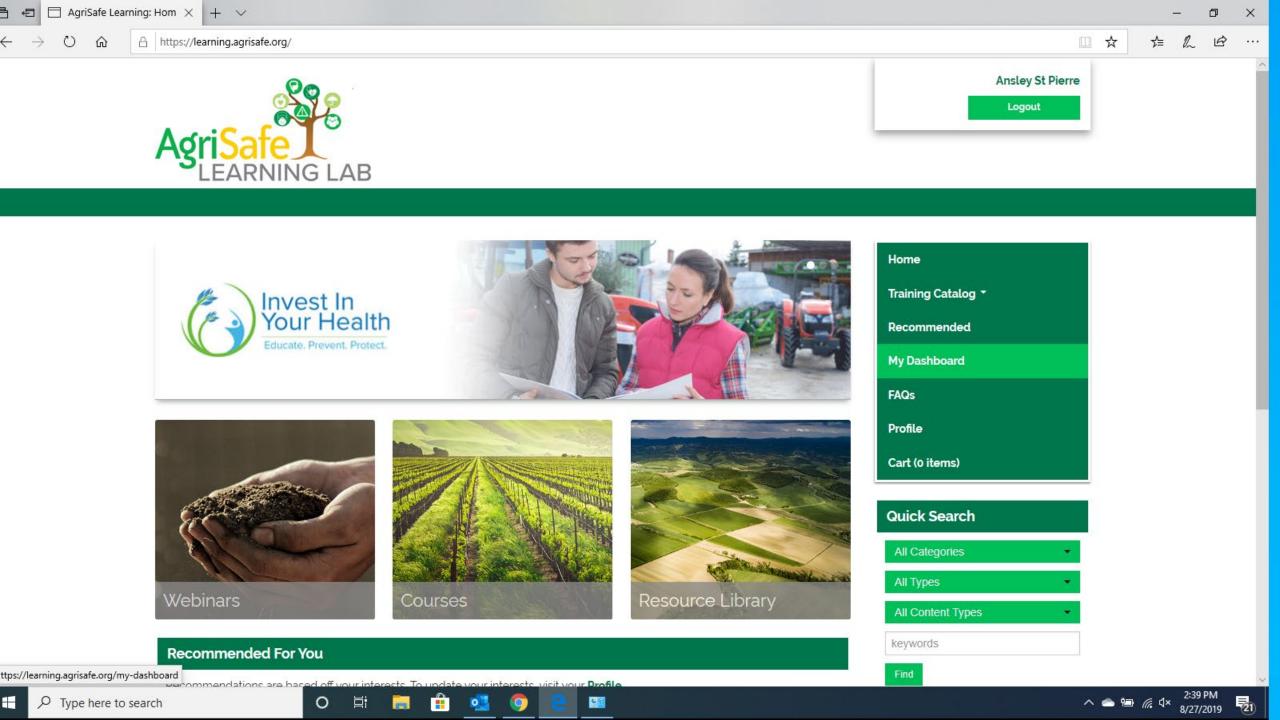

Invest in Your Health Course & Materials
